

# Smart India Hackathon 2022

software & hardware edition

## First Batch Results

The first batch of results for 63 Problem Statements is live. Some of the ideas/teams are in the waitlist category. They will be pushed to the shortlist category if any of the teams in their category back out. Some of the teams might have been selected against multiple Problem Statements, these teams will be provided with the option to select only one PS for the grand finale."
