

DEPARTMENT OF CIVIL ENGINEERING

GUEST LECTURE

“CEMENT MANUFACTURING AND ADVANCED CONCRETE TECHNOLOGY”

Department of Civil Engineering was organized a guest lecture programme **“Cement Manufacturing and Advanced Concrete Technology”** dated 29.08.2019 at 03.00 pm in ICE Seminar Hall. The chief guest was **Mr.B.Suresh, M.E.,** General Manager (Technical Services), Chettinad Cement, Chennai

The function commenced with the welcome address by Mr. S.Rameshwaran, Assistant Professor/ Civil. The chief guest was honoured by Dr.C. Sundar Raj, Principal, AVCCE.

The chief guest Mr.B.Suresh delivered speech about manufacturing of cement and importance of water cement ratio and practically how it affects the durability of concrete.

Dr. S.Balasubramanian, Professor/ Civil summarized the chief guest's speech and gave advice to the students.

The programme came to an end with vote of thanks Mr.R.Jayasankar HoD/Civil. Then the students, faculty members and Dean (Academics) visited their mobile concrete laboratory bus. The bus consists of CTM, coarse aggregate sieves, fine segregate sieves, NDT tests like rebound hammer, etc. They explained the use of each and every instrument to the students. It was an eye opener on technology for students.
