

A.V.C. COLLEGE OF ENGINEERING

Disaster Risk Reduction Club

Report on Disaster Risk Reduction Training Programme

The *Disaster Risk Reduction Club* of AVC College of Engineering, in collaboration with the *National Disaster Response Force (NDRF)* and the *Fire and Rescue Services Department*, organized a training programme at AVC College of Engineering, Mannampandal. The programme aimed to create awareness and provide hands-on training to students on lifesaving measures during disasters and fire accidents.

The Principal of AVC College of Engineering delivered the welcome address, and the Director of the institution honored the NDRF and Fire Rescue Team for their dedicated service. The trainers from NDRF and Fire & Rescue Force demonstrated various rescue techniques and explained the methods to protect and save people during emergencies.

A total of **250 students** from AVC College of Engineering and Gnanambigai Arts College, Mayiladuthurai, actively participated and benefitted from this programme. The event greatly enhanced the students' preparedness and response skills in disaster situations.
