Program Report:

Department of EEE organized an Online guest lecture for our students on the topic “Energy conservation and Energy Auditing” on 15.02.2019 from 10.00 AM to 12.00 PM by Mr. B. Senthilkumar, Director, NIN Energy India Pvt Ltd. He readily accepted to deliver an awareness talk among our students about energy conservation and energy efficiency. He is an accredited Energy Auditor by Bureau of Energy Efficiency, Government of India

Energy conservation and energy efficiency:

Energy conservation is the decision and practice of using less energy. He insisted our students to follow the day-to-day simple practices to save energy like

1. Turn off the light when you leave the room,
2. Unplug appliances when they're not in use, and
3. Walk instead of driving.

The two main reasons people conserve energy are to gain more control over their energy bills and reduce the demand for the earth's natural resources. He also discussed various standards followed in the energy sector. He encouraged our students to become energy auditor and the future behind this field. Totally 70 members – both students and faculty members attended and got advanced from this program.
