Program Report:

On "National Energy Conservation Day" on behalf of the IE(I) Chapter and IIC Self-driven activity, we organized an Online webinar for our students on the topic "Climate action – the role of energy efficiency and renewable energy" on 14.12.2021 from 11.30 AM to 1.00 PM by Ms. Cynthia Alexander, Principal Officer for renewable energy and energy management, Seychelles Energy Commission. She readily accepted to deliver an awareness talk among our students about energy conservation and energy efficiency. Energy conservation is the decision and practice of using less energy. She insisted our students to follow the day—to—day simple practices to save energy like

- 1. Turn off the light when you leave the room,
- 2. Unplug appliances when they're not in use, and
- 3. Walk instead of driving.

The two main reasons people conserve energy are to gain more control over their energy bills and reduce the demand for the earth's natural resources. She also discussed the emission of GHG emission due to unnecessary usage of electrical equipment. Totally 93 members – both students and faculty members attended and got advanced from the webinar programme. The programme came to the end with the vote of thanks proposed by Dr.M.Latha department of EEE.
