Department of EEE.

**Program Report:**

Students must have a much larger responsibility in how they behave, and they usually end up. Students who are not taught the basic values appreciated by society may have little chance to learn them. Values such as honesty, integrity, respect for others, and loyalty form the foundation of a person's character and encourage citizenship. These moral and ethical principles should be taught to students early in their academic careers and reinforced whenever possible. With this view Department of Electrical and Electronics Engineering, A.V.C. College of Engineering has arranged a guest lecture for engineering students, by **Dr. G. Sridevi MBA., M.Phil., Ph.D.**, Professor and Director, Department of Management Studies, A.V.C. College Of Engineering. The title is "**Behavior Modeling for Professional Students**". She discussed the following things with the students.

- [Values](#)
- [Behavioral Skills](#)
- [Classroom Behaviours](#)
- [Professional Behaviours](#)

[Finally she introduced some of the famous and successful EEE graduates in various fields.](#)
