Report of “Outreach program – Career opportunities in the Department of atomic energy

AVCCE – EEE Department organized an Outreach program for III-year and IV-year students of all the departments on 23.2.23 at PEKAK Hall. An outreach program aims to help, uplift, and support those who are deprived of certain services and rights. This outreach program targets the welfare of student society as a whole as its objective. It enables students to be self-sufficient and improves their lives by creating awareness of existing services in the DAE (Department of Atomic energy). This program must be organized to use opportunities available in DAE resources and aid to fulfil a goal.

The function started with the prayer song by our students.

Dr. A. Ravi, Professor and Head/EEE welcomed the gathering.

Dr. C. Sundar Raj, Principal – AVCCE delivered such a motivational and inspirable inaugural address.

Dr. A. Sree Rama Murthy, Scientific Officer – F, IGCAR, Kalpakkam presented the chief guest address. He started the speech with his inspired thoughts and gave an elaborative note on “Atomic Energy”. His speech really motivated young minds in the direction of future energy resources.

He clarified a lot of questions raised by the students about the safety measures related to nuclear radiation, followed in the Atomic energy plant. He explained the future energy demands and the comparison between the energy production from atomic energy and thermal, hydro energy resources.

He finally described the opportunities available in the various divisions of the Department of Atomic Energy. The BARC (Bhabha Atomic Research Centre) Training Schools and its affiliates conduct a one-year Orientation Course for Engineering (OCE) graduates and Science post-graduates (OCES). A new scheme called the DAE Graduate Fellowship Scheme for Indian Institutes of Technology (IITs) with the twin objectives of human resource development and collaborative research through the medium of M.Tech students has also been in place for many years.

He defined the importance GATE examination which is the entry key to appear for the interview. Another opportunity is the entrance examination conducted by the DAE for joining as a trainee in the BARC schools. He gave a note about the important dates related to the online examination conducted by DAE.

Online Examination	April 8, 2023 to April 9, 2023

He invited our young minds to DAE to serve the nation.

Around 200 Students from various Departments (EEE, ECE, CIVIL, CSE, and Mechanical) of III Year and IV Year have actively taken part in the program.

The feedback from the participants' side has been welcomed and most of the participants have given positive feedback about the way of organizing such interesting and enthusiastic lectures from eminent personalities in the field of energy.

Dr. SA. Chithradevi proposed the vote of thanks.

The function ended with National Anthem.
