## Department of Computer Applications

### Transport Management System

College Transport Management System software have been developed by Department of Computer Applications. The main objective of Transport management system is to maintain all process of transport system. Using this system, all transport related activities like pass generation, pass issue, bill generation, bus allocation are done. Transport system can store and manage data, who are utilizing the college transport. Report is generated based on bus wise & route wise, it is very easy to maintain transport related information
