OUR INSIGNIA

The emblem of the college encompasses an encircling cogwheel signifying the preponderance of technology for modern life and the college has been approved by the All India Council for Technical Education (AICTE), New Delhi.

The lotus bears the image of Bharathidasan indicates the college is wedded to the great ideals of his visionary. The elephant symbol is for the power and steadfastness which advocate, our students ought to attain great intellectual power.

The temple tower and the peacock stand for the religious significance of Mayiladuthurai, where the college is situated. The five sheaf of paddy on the left indicates the founding families of the AVC (Anbanathapuram Vahaira Charities) namely Anbanathapuram, Enathimangalam, Pallavarayapet, Karugudi and Kanganamputhur. The power tower on the right implies the vitality of power for the evolution of engineering and technology. The Tamil motto at the bottom specifies the purpose of knowledge is the pursuit of ultimate truth.

A.V.C COLLEGE OF ENGINEERING

The **Anbanathapuram Vahaira Charities - AVC**, instigated in the year 1806 with the five philanthropic families of **Pallavarayapet, Enathimangalam, Karugudi, Anbanathapuram** and **Kanganamputhur** shortly called **PEKAK** implicated for societal service launched by the founder father, **Thiru. S. Ramalingam Pillai**.

With the dictum “Providing Educational Opportunity” to the rural public, the AVC trust started rendering Educational service from 1955 itself. The golden jubilee organization, **A.V.C. College** commenced in the year **1955**. The silver jubilee institution **A.V.C. Polytechnic College** inducted in **1983**. **A.V.C. College of Engineering** established in **1996**.

A.V.C. College of Engineering is approved by **All India Council for Technical Education (AICTE)**, New Delhi, recognized by Government of Tamil Nadu and affiliated to Anna University, Chennai.

A.V.C. College of Engineering has been Re-Accredited by the **National Assessment and Accreditation Council (NAAC)** with **B++** grade(2nd Cycle).

Our institution is certified with **ISO 9001:2015 (International Organization for Standardization)** by **DNV-GL, Netherland**. With the motto, continuous quality improvement, we strive to ensure perfection for academic excellence.

Our institution is the Nodal Resource Sub-Centre of IIT Bombay Spoken Tutorial and Associate Member of ICT Academy.

Department of Mechanical Engineering, and Department of Chemistry have been recognized as collaborative research departments by Centre for Research, Anna University, Chennai.

Department of ECE, CSE, IT, and ICE have got permanent affiliation from Anna University, Chennai.

The various avenues to refine our graduates, as a readily employable technocrats are the state-of-the art resources, teaching with practical skill, In-plant training, Career Guidance Programme, Job fairs, Memorandum of Understanding (MoU) with leading organizations. This paves a head start to our graduates in the employment Market.

A.V.C. College of Engineering is situated in the main high way, six kms from the historical town Mayiladuthurai housed in an evergreen scenic landscape of around 30 acres on the Mayiladuthurai - Thirukkadaiyur high way.

Vision

To blossom into a cynosure of technological innovations.

Mission

To participate in the noble cause of nation building by offering professional education, research and training in engineering and technology especially to the rural based poor students.

Quality Policy

To shape a healthy student who is physically, mentally, spiritually and socially strong to face the ever growing challenges of the academia, industry and society.

Quality policy focuses on

1. Infrastructure

Establishment of the state-of-the-art laboratories and facilities to offer scientific research and need based training to meet the global needs of the industry.

2. Curriculum

Accomplishment of innovative teaching learning process of the students to meet the advancement of contemporary society.

3. Student

To strengthen the inherent skills and talents for the proficient education to congregate the current global trend.

4. Faculty

To provide the scope for continuous quality improvement to fulfill the ever growing needs and challenges.

5. Society & Industry

To enthusiastically involve in industrial and social development activities.

IMPORTANT NOTICE
Ragging is an offence

Ragging in any form is cognizable offence that will attract severe punishment including summary expulsion from the College / Institution / University.

Extract of Tamilnadu Govt. Gazette –Dated 29.01.97 (Bill No. 8 of 1997 Tamilnadu prohibition of Ragging Act)

1. “Ragging” means display of noisy, disorderly conduct, doing any act which causes or is likely to cause physical or psychological harm or raise apprehension or fear or shame or embarrassment to a student in any educational institution and includes:
 - a. Teasing, abusing or playing practical jokes on, or causing hurt to such student; or
 - b. Asking the students to do any act or perform something, which such students will not, in the ordinary course, willingly act or perform.
2. Ragging within or outside any educational institution is prohibited.
3. Whoever directly or indirectly commits participates, in abets or propagates “Ragging” within or out side any educational institution, shall be punished with imprisonment for the term which may extended to two years and shall also be liable to fine which may be extended to ten thousand rupees.

4. Any students convicted of an offence under section-4 shall also be dismissed from the educational institution and such students shall not be admitted in any other educational institutions.
5. Without prejudice to the foregoing provisions, whenever any student complaints of ragging to the head of an educational institution, or to any other person responsible for the management of the educational institution, (such head of the educational institution or person responsible for the management of the educational institution) shall inquire into the same immediately and if found true shall suspend the student, who has committed the offence from the educational institution.

Ragging is totally prohibited in the college, hostel and outside the campus. Ragging is not a fun but an inhuman act. Those found responsible for ragging will be very severely punished. Even among minor violation had been very seriously dealt with resulting in dismissal from the college. Ragging is totally absent in our institution. Thank you students for the continued support extended.

General Rules and Regulations for students

11. All fees must be paid on the dates notified in the college notice board. If the fees are not paid within the stipulated time, the defaulters name shall be struck off from the rolls.

12. Identity cards are issued to all students soon after admission. Students are required to wear their identity cards as a rule. The identity card is mandatory to appear for examinations, scholarship, visit to library etc.
13. The prescribed minimum attendance for a student is 75% for each subject in a semester. If the student fails to comply with, she/ he shall not be permitted to appear for University examinations.
14. All certificates will be issued after submission of a request letter to the college office. In general two days notice is necessary for the issue of certificates. Certificates will be issued to the students only on production of their identity cards.
15. Representation of complaints and reasonable grievances may be made to the principal through the respective Head of the Department.
16. The decision of the principal shall be final in all matters of disciplinary action pertaining to the rules and regulations of the college.

**Students are not allowed to use cell phones
inside the college campus**

CODE OF ETHICS FOR ENGINEERS / PROFESSIONALS

An Engineer / Professional shall:

1. Practice his profession with integrity, conscience, dignity and honor and follow the best tradition of the profession.
2. Be aware that the principles of eco-system interdependence, diversity maintenance, resource recovery and inter- relational harmony from the basis of our continued existence and that each of these poses a threshold of sustainability that should not be exceeded.
3. Hold paramount the safety, health and welfare of the people and the production of the environment and promote health and safety within the work place.
4. Offer services, advice to undertake engineering assignments only in the areas of his competence and to furnish correct information of his qualifications and experience to concerned client.
5. Uphold and maintain confidentiality and respect for secrets confided in him by the clients, employers and employees in connection with any professional work undertaken by him.
6. Keep informed and updated in his area of professional activity and strive to provide opportunities for professional development of his subordinates.

7. Conduct without consideration of caste, creed, and social status and shall not perform and act against the interest of the nation.
8. Present clearly to all concerned the possible consequences of ignoring, overruling or discarding technological and engineering decisions or judgments without proper justification.
9. Not directly or indirectly injure the professional reputation of another engineer.
10. Not to accept any unauthorized commission, discount, allowance or profit direct or indirect to himself in connection with any work under his charge or for any professional business entrusted to him.
11. Not to act in a manner, this may injure the reputation or the image of the institution or may cause damage to the institution financially or otherwise.

IDENTITY CARD (RFID)

Identity cards are issued to every student. Students should be in possession of the card all the time where ever they go when they are in campus, ready to produce on demand by the faculty or any person authorized by the Principal. It is essential, when students go for sports activities, practical training, industrial visit, project works etc.

Library Facilities

Central Library, the learning support, provides **38600** volumes of text and reference books with **80** National and International Journals. Online Journal access through Institutional membership in DELNET, ICTACT, ELSEVIER Journal, NDL and Ndigital has been provided for staff and students. The Library is located in a two storey building with **500 m²** built up area along with airconditioned discussion rooms, NPTEL and MOOCS facilities. The Library is fully computerized with bar code system.

PG Library provides **18100** volumes of text and reference books with **60** National and International Journals. The PG Library located in **260 m²** built up area. The Library is fully computerized with bar code system.

Working Hours : 9.00 am to 8.00 pm
on all working days

Timing for issue/

Return of books : 9.00 am to 8.00 pm

Timing for Taking

Photostat copy : 9.00 am to 5.00 pm

Students can borrow 4 books. The books will be lent for a period of 15 days from the date of borrowing. The borrowed books must be returned on the due date.

Computing Facilities

The college is well equipped with Intel Pentium based Windows 2000, 2003 servers, Rack servers, Linux servers, with necessary software support. There are more than 775 nodes with powerful servers with the capacity for designing, drafting, analysis and multimedia application. All the students and faculty can access these resources at anytime of the day.

Internet Access Facility

50 MBPS Broad Band internet access facility has been provided to the students. In addition, a campus intranet facility comprising of 10/100/1000 MBPS Intranet web services, mail services, file

sharing, printing and database services. This service is available for 24 hours a day. The college campus is enabled with 50 MBPS Wi-Fi facility.

Language Lab

A state-of-the-art Language Laboratory with 40 conventional Audio Interactive Systems and 15 Multimedia Educational Network Systems has been established to enable learners to develop aural and oral fluency. The language laboratory with its high tech equipment and acoustically treated roof and walls provide an excellent environment for the learners. The ergonomic design of the cubicles and its interior sets the right ambience for hours of hectic practice. The hardware is supplemented with latest language software to train the students in U.K. English, U.S. English, Linguaphone Business English. Adequate software's are also available to train the students to take up proficiency exams like TOEFL, IELTS, GRE and BEC.

Yoga Club

Yoga is a way of life. It is to unite body and mind, mind and soul, individual and the society. Every morning from 6.00 am to 7.00 am and evening from 5.00 pm to 6.00 pm, Yoga classes are conducted for students and staff.

Banking Facilities

Indian Bank Branch is available in the premises, for the benefit of the staff and students of the Institute. ATM Facility of Union Bank of India is also available in the Premises.

Medical Facilities

A well equipped Medical Centre is available at the campus. In case of an emergency, ambulance is readily available for 24 hours a day to take the students to the hospitals located at Mayiladuthurai.

Transport Facility

The Institution has 30 buses for the benefit of the day scholar students and the staff which ply between Chidambaram, Kumbakonam, Tiruvarur, Aduthurai, Peralam, Mayiladuthurai, Poombuhar, Thiruppanandal, Eravanchery and Thiruchitrambalam to the Institution on all working days. The bus facilities are being utilized for local visits and educational trips.

Residential Facilities

Well furnished separate hostels for Boys and Girls with Adequate rooms are available. The living rooms are built with aesthetic layout, containing wardrobe and storage space. Telephone link is available throughout day and night. Two Student Centered dining halls with a seating capacity of 200 students are available. Reading Room with library facilities, TV room, Computing centre with internet facilities are available in the hostel.

Counselling System

Faculty is assigned for counselling a batch of 20 students, who will be available for guidance and advice. The students should meet their respective staff counsellors every week and discuss their progress and problems. The members of faculty are equipped to give guidance on academic, personal, social and psychological problems, and to bring out the overall development of the students.

A Professional Psychology Counsellor is available in the campus to provide professional counselling to the students for their Psychological needs and problems.

Fitness Management

The campus provides everything a student needs for leisure management and entertainment. The Institution caters to a wide range of Games including Badminton, Basket Ball, Ball Badmiton, Cricket, Hockey, Volley Ball, Hand Ball Kabadi, Chess, Table Tennis, and Foot Ball.

Well equipped state-of-art Multipurpose Hall with indoor Game facilities such as Basket Ball, Volley Ball and Batmiton Courts are available. In addition, fitness centre (Gym) is available in the campus. To enhance the sports among the students, 400 m Track facilities, Shot Put, High Jump, Long Jump, Polevault, Discus Throw, Javelin and Weight Lifting are available for field events.

Co-curricular and Extracurricular Activities

In addition to academic activities, the Institute is humming with co-curricular and extracurricular activities to bring out the latent talent of the students. The co-curricular activities include Technical Associations of various departments, IEEE Chapter, ISTE Chapter (Staff and Students), CSI Chapter, IIPE, ENFUSE, IETE and IEI. The extracurricular activities include NSS, NSO, Yoga Club, Blood Donation Club, Fine Arts Club, Youth Red Cross, Red Ribbon Club, R&D Cell, Women Development Cell, Academic Development Cell, Industry Institute Interaction cell, Entrepreneurship Development Cell, IQAC Cell, IPR Cell, ICT Academy, FOSS Club, ECO Club and Quality Improvement Cell.

In addition, various Functional Committees such as Library Committee, Class Committee, Hostel Committee, Publication Incentive Scrutiny Committee, Placement Assistance Committee and Alumni Association are in place.

Training and Placement

In AVCCE, we emphasize on appropriate training and effective placement of our students in various industries. We prepare them to face real life situations after graduation through regular learning and development programmes conducted for all the students. Special learning sessions are organized for the interested students to help them to develop physically, mentally, psychologically

and spiritually. The Department of Training and Placement maintains a comprehensive data base of the students ready for campus interviews and organizes placements through on campus as well as off-campus processes throughout the academic year to place all the eligible students.

The department arranges industrial training in leading industries for the students during their summer and winter holidays. Blue chip companies from various sectors IT as well as Core Engineering visit the institute regularly to conduct interviews and recruit candidates. The department also conducts a series of Personality Development programmes and grooms the students from the II year of their course.

A number of Industry-Institute Interactive Programmes are organized to create opportunity for the students to interact with top officials of leading corporates, who visit our campus. The department also conducts combined campus selection processes involving the students of neighboring engineering colleges too, which help in bringing the companies and the colleges together there by helping in the mutual growth of Industries and the Institutes. Soft Skills Training programme for the Faculty members are also conducted by the Training and Placement department.

DEPARTMENT OF MECHANICAL ENGINEERING

Vision

To establish as a centre of excellence in the field of Mechanical Engineering in academics, research and development and serve the society by moulding the rural students as engineers to meet the challenges of the industry.

Mission

Ensure high quality Mechanical Engineering education at both under graduate and post graduate levels to rural students by providing excellent academic environment, technical knowledge, Engineering skills, research attitude and professional ethics as per the expectation of the industry.

Programme Educational Objectives (PEOs)

Bachelor of Mechanical Engineering curriculum is designed to impart Knowledge, Skill and Attitude on the graduates to

1. Have a successful career in Mechanical Engineering and allied industries.
2. Have expertise in the areas of Design, Thermal, Materials and Manufacturing.
3. Contribute towards technological development through academic research and industrial practices.
4. Practice their profession with good communication, leadership, ethics and social responsibility.
5. Graduates will adapt to evolving technologies through life-long learning.

Programme Outcomes (POs)

1. An ability to apply knowledge of mathematics and engineering sciences to develop mathematical models for industrial problems.
2. An ability to identify, formulate, and solve complex engineering problems. with high degree of competence.
3. An ability to design and conduct experiments, as well as to analyze and interpret data obtained through those experiments.
4. An ability to design mechanical systems, component, or a process to meet desired needs within the realistic constraints such as environmental, social, political and economic sustainability.
5. An ability to use modern tools, software and equipment to analyze multidisciplinary problems.
6. An ability to demonstrate on professional and ethical responsibilities.
7. An ability to communicate, write reports and express research findings in a scientific community.
8. An ability to adapt quickly to the global changes and contemporary practices.
9. An ability to engage in life-long learning.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

Vision

To produce professional technocrat in Electronics and Communication Engineering to face the demands of industrial developments and benefits of the mankind.

Mission

- To contribute knowledge in fundamentals and applied areas of Electronics and Communication Engineering
- To implement theoretical concepts in practical scenarios
- To carry out project works through constant interaction with industry
- To provide ethical and value based education to serve societal needs

Programme Educational Objectives (PEOs)

PEO1: To enable graduates to pursue research, or have a successful career in academia or industries associated with Electronics and Communication Engineering, or as entrepreneurs.

PEO2: To provide students with strong foundational concepts and also advanced techniques and tools in order to enable them to build solutions or systems of varying complexity.

PEO3: To prepare students to critically analyze existing literature in an area of specialization and ethically develop innovative and research oriented methodologies to solve the problems identified.

Programme Outcomes (POs)

Engineering Graduates will be able to:

- 1. Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
- 2. Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
- 3. Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
- 4. Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

5. **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
6. **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
7. **Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
8. **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
9. **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
10. **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

11. Project management and finance:

Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

12. Life-long learning:

Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Programme Specific Objectives (PSOs)

1. To analyse, design and develop solutions by applying foundational concepts of electronics and communication engineering.
2. To apply design principles and best practices for developing quality products for scientific and business applications.
3. To adapt to emerging information and communication technologies (ICT) to innovate ideas and solutions to existing/novel problems.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Vision

To excel in the field of Computer Science and Engineering with technological innovations.

Mission

- To impart quality technical education to the students through creative teaching learning process.
- To create facilities and expertise in cutting-edge computer technologies through Industry Institute partnership.
- To motivate the students to apply their innovative ideas to construct research models.
- To transform the students into socially and ethically responsible professionals.

Programme Educational Objectives (PEOs):

1. To enable graduates to pursue higher education and research, or have a successful career in industries associated with Computer Science and Engineering, or as entrepreneurs. To ensure that graduates will have the ability and attitude to adapt to emerging technological changes.

Programme Outcomes (POs):

- 2. Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
- 3. Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
- 4. Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
- 5. Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.

- 6. The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
- 7. Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
- 8. Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- 9. Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- 10. Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

11. Project management and finance:

Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multi disciplinary environments.

12. Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Programme Specific Objectives (PSOs)

- To analyze, design and develop computing solutions by applying foundational concepts of Computer Science and Engineering.
- To apply software engineering principles and practices for developing quality software for scientific and business applications.
- To adapt to emerging Information and Communication Technologies (ICT) to innovate ideas and solutions to existing/novel problems.

DEPARTMENT OF INFORMATION TECHNOLOGY

Vision

To evolve as an esteemed centre of excellence in Information Technology domain and shape the students technically competent and value based professional, in turn contribute to the betterment of the society.

Mission

- To uplift rural students by imparting knowledge based education and offers value based training in Information Technology.
- To build highly competent workforce to bridge the gap between industry and academia.
- To cultivate a team spirit and discipline among the students.
- To inculcate Ethical and Moral Values with social commitment.
- To create the students to become thoughtful leaders in Information Technology.

Programme Educational Objectives (PEOs)

1. To ensure graduates will be proficient in utilizing the fundamental knowledge of basic sciences, mathematics and Information Technology for the applications relevant to various streams of Engineering and Technology.

2. To enrich graduates with the core competencies necessary for applying knowledge of computers and telecommunications equipment to store, retrieve, transmit, manipulate and analyze data in the context of business enterprise.
3. To enable graduates to think logically, pursue lifelong learning and will have the capacity to understand technical issues related to computing systems and to design optimal solutions.
4. To enable graduates to develop hardware and software systems by understanding the importance of social, business and environmental needs in the human context.
5. To enable graduates to gain employment in organizations and establish themselves as professionals by applying their technical skills to solve real world problems and meet the diversified needs of industry, academia and research.

Programme Outcomes (POs)

Engineering Graduates will be able to:

1. **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
2. **Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

3. **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
4. **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
5. **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
6. **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
7. **Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
8. **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

9. **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
10. **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
11. **Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
12. **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Programme Specific Objectives (PSOs)

1. To create, select, and apply appropriate techniques, resources, modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations.
2. To manage complex IT projects with consideration of the human, financial, ethical and environmental factors and an understanding of risk management processes, and operational and policy implications.

DEPARTMENT OF INSTRUMENTATION AND CONTROL ENGINEERING

Vision

To be a dynamic contributor to the global community through the development of expertise and dissemination of advance knowledge in the field of Instrumentation and Control and to create an environment that will facilitate the growth of individuals through innovative teaching, research and involvement of industry.

Mission

- To provide high quality education, which allows the students to realize their aspiration and potential in order to encourage, provide support creative and innovative projects & activities, to become industry-ready or pursue higher studies of their choice.
- To contribute towards the betterment of society through workshops by imparting practical skills to unemployed youth for better employability in rural areas. We hold ourselves to high standards of moral and ethical conduct, to work on socially relevant issues/problems, issues/problems of national importance.

Programme Educational Objectives (PEOs)

Bachelor of Instrumentation and Control Engineering curriculum is designed to prepare the graduates having attitude and knowledge to

1. Have successful technical and professional careers in their chosen fields such as Process Control, Electronics & Information Technology.
2. Engross in life long process of learning to keep themselves abreast of new developments in the field of Electronics & Instrumentation

Programme Outcomes (POs)

The graduates will have the ability to

- a. Apply the Mathematical knowledge and the basics of Science and Engineering to solve the problems pertaining to Electronics and Instrumentation Engineering.
- b. Identify and formulate Instrumentation Engineering problems from research literature and be able to analyze the problem using first principles of Mathematics and Engineering Sciences.
- c. Come out with solutions for the complex problems and to design system components or process that fulfill the particular needs taking into account public health and safety and the social, cultural and environmental issues.

- d. Draw well-founded conclusions applying the knowledge acquired from research and research methods including design of experiments, analysis and interpretation of data and synthesis of information and to arrive at significant conclusion.
- e. Form, select and apply relevant techniques, resources and Engineering and IT tools for Engineering activities like electronic prototyping, modeling and control of systems/processes and also being conscious of the limitations.
- f. Understand the role and responsibility of the Professional Instrumentation Engineer and to assess societal, health, safety issues based on the reasoning received from the contextual knowledge.
- g. Be aware of the impact of professional Engineering solutions in societal and environmental contexts and exhibit the knowledge and the need for sustainable Development.
- h. Apply the principles of Professional Ethics to adhere to the norms of the engineering practice and to discharge ethical responsibilities.
- i. Function actively and efficiently as an individual or a member/leader of different teams and multidisciplinary projects.

- j. Communicate efficiently the engineering facts with a wide range of engineering community and others, to understand and prepare reports and design documents; to make effective presentations and to frame and follow instructions.
- k. Demonstrate the acquisition of the body of engineering knowledge and insight and Management Principles and to apply them as member / leader in teams and multidisciplinary environments.
- l. Recognize the need for self and life-long learning, keeping pace with technological challenges in the broadest sense.

DEPARTMENT OF CIVIL ENGINEERING

Vision

To produce knowledgeable and professionally qualified Civil Engineers with the capability to offer global solutions to the increasing problems in the construction industry.

Mission

- To impart knowledge and training in Civil Engineering.
- To establish state-of-the-art infrastructure to enable learners to update their knowledge in current developments in Civil Engineering
- To bridge the gap between academy and industry through practical exposure and hands-on-training

Programme Educational Objectives (PEOs)

- I. To prepare students for successful careers in Civil Engineering field that meets the needs of Indian and multinational companies.
- II. To develop the confidence and ability among students to synthesize data and technical concepts and thereby apply it in real world problems.
- III. To develop students to use modern techniques, skill and mathematical engineering tools for solving problems in Civil Engineering.

- IV. To provide students with a sound foundation in mathematical, scientific and engineering fundamentals necessary to formulate, solve and analyse engineering problems and to prepare them for graduate studies.
- V. To promote students to work collaboratively on multi-disciplinary projects and make them engage in life-long learning process throughout their professional life.

Programme Outcomes (POs)

On successful completion of the programme,

1. Graduates will demonstrate knowledge of mathematics, science and engineering.
2. Graduates will demonstrate an ability to identify, formulate and solve engineering problems.
3. Graduate will demonstrate an ability to design and conduct experiments, analyze and interpret data.
4. Graduates will demonstrate an ability to design a system, component or process as per needs and specifications.
5. Graduates will demonstrate an ability to visualize and work on laboratory and multidisciplinary tasks.
6. Graduate will demonstrate skills to use modern engineering tools, software and equipment to analyze problems.

7. Graduates will demonstrate knowledge of professional and ethical responsibilities.
8. Graduate will be able to communicate effectively in both verbal and written form.
9. Graduate will show the understanding of impact of engineering solutions on the society and also will be aware of contemporary issues.
10. Graduate will develop confidence for self education and ability for life-long learning.

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

Vision

To give quality education with latest innovative teaching methodology.

To mould the students to take up any leadership roles in this competitive world.

To make the students globally competent in the field of Electrical and Electronics Engineering.

Mission

- To produce Electrical Engineers with plenty of knowledge in the emerging areas of Electrical and Electronics Engineering
- To develop the qualities of integrity, sincerity, honesty and discipline
- To nurture continuous education and R&D activities

Programme Educational Objectives (PEOs)

1. Have successful technical and professional careers in their chosen fields such as circuit theory, Field theory, control theory and computational platforms.
2. Engross in life long process of learning to keep themselves abreast of new developments in the field of Electronics and their applications in power engineering.

DEPARTMENT OF SCIENCE & HUMANITIES

Vision

To create and impart knowledge to students who contribute their professions in a global society.

Mission

- To provide education in a scholarly environment
- To prepare the students for their successful professional careers.
- To extent the body of knowledge and improve the quality of life.
- To enable and empower every individual to acquire professional competence and to develop character with responsibility and accountability
- To create and enrich the learning environment which promotes cultural, ethnical values and environmental sustainability.
